

# Yellowstone Environmental Contracting

www.yecllcmt.com

## Company Overview

Yellowstone Environmental Contracting was founded by Kara Mader and Zac Mader at the beginning of 2011 with the primary focus being the installation of erosion control blankets and turf reinforcement matting. Even though we are a young company, we have gained the knowledge to provide services for any erosion situation. YEC is becoming an aggressive player in the construction industry while staying committed to its customers. We are DBE Certified as well as a registered contractor in multiple states.

*“The mission of YEC is to become a recognizable and respectable company in the environmental contracting field. YEC provides reliable service and quality products to companies that it contracts with, while building a strong working relationship with customers. YEC is committed to being the name that is associated with erosion control and re-vegetation.”*

## Company Information
